

Maurice Wingfield

yell@mauricewingfield.com · mauricewingfield.com

Builder · Full-stack developer · Founder/Operator

Cleveland, OH · Remote (US) / open to relocation (US & International)

Taking projects from zero to one across product, engineering, and growth. Over the past year, designed and built 4 products spanning computer vision, Android, and autonomous agents, several live in production.

SKILLS

Python, JavaScript, CSS, Kotlin/Android, PHP, Laravel, Django, FastAPI, computer vision, Ollama, Claude Code, OpenAI moderation & completion API, GCP TTS API, Firebase, TouchDesigner, GIMP, Figma, Remotion

EXPERIENCE

Founder / Owner, NPC.guide

May 2026 - Present

- Building an AI-enabled retail-execution business for the XPrize + Google hackathon.
- Concept & validation, business development, and marketing.

Independent AI Engineer & Builder | Self-directed

Jan 2025 - Present

Four products designed and built solo, each taken from concept to users:

- [Fidget Feed](#) (beta): Android app-blocker that replaces the doomscroll with low-cog fidget widgets.
- [RedLine](#) (beta): lets rideshare drivers filter ride offers by geofencing the areas they want to avoid.
- memory.audio (retired): generated bite-sized audio lessons for self-directed learning (~100 users).
- Readcaster (pre-launch): generates beautiful live-highlighting quote cards for podcasts and video production.

Application Developer, Lifestyle Communities LLC, Columbus, OH

April 2018 - May 2023

- Full-stack PHP developer across a portfolio of applications and websites.
- Delivered features, maintenance, and perf/stability improvements for marketing and operations stakeholders.

Software Developer II, Branding Brand, Pittsburgh, PA

Jun 2016 - Jan 2017

- Maintained and enhanced mobile e-commerce applications across client and server tiers.

COMMUNITY & LEADERSHIP

Board Member, 934 Gallery / Digital Garage

2022 - 2023

- Creative technologist building interactive digital art installations in reclaimed gallery space: TouchDesigner-driven projection mapping & custom LED panels.
- Won a Columbus Arts Council grant to found and run a free 5-week youth design-thinking STEM camp, including a Systems Thinking STEAM module delivered with COSI.

Community Organizer, Pittsburgh, PA & Columbus, OH

2016 - 2019

- Pittsburgh Machine Learners (2017), Columbus Machine Learners (2019), Pittsburgh Comic Meetup (2016).
